

Invasive plants and animals block waterways and harm the environment

Don't spread them on your boat

CHECK

Check boats, equipment and clothing after leaving the water for mud, live animals or plant material. Remove anything you find and leave it at the site. Reapply anti-fouling annually.

CLEAN

Clean everything thoroughly as soon as you can, paying attention to ropes, bilges, trailers, and areas that are damp and hard to access. Use hot water if you can.

DRY

Dry - drain water from every part of your boat and trailer before leaving the site. Dry everything for as long as possible before using elsewhere.
