

Canoeing or kayaking abroad?

Invasive species
block waterways.
Don't bring them back.

Photo: Mal Grey

Protect the environment you love:

CHECK

Check boats, equipment and clothing when you leave the water. Remove any muck or plant material and put it in the bin.

CLEAN

Clean everything thoroughly as soon as you can, pay particular attention to areas that are damp and hard to access. Use hot water if possible.

DRY

Dry - drain water from every part of your boat and dry it with a towel before leaving the site. Dry everything thoroughly for as long as possible before using elsewhere.
