If your plants escape beyond your garden border they can become invasive, harming our wildlife, environment, and the economy

Once established, invasive plants are costly to control and the damage they cause can be irreversible. You can help to protect the environment by following our three simple tips:

Choose the right plants for your garden, pond, aquarium and water features

Keep your plants in your garden, don't plant them, or allow them to grow, in the wild

Dispose of your unwanted plants, roots, weeds, seeds, and seed heads responsibly
