

Boating abroad?

Invasive species
block waterways.
Don't bring
them back.

Protect the environment you love:

CHECK

Check boats, equipment and clothing when you leave the water. Remove any muck or plant material and put it in the bin.

CLEAN

Clean everything thoroughly as soon as you can. Use hot water if possible. Anti-foul boats annually.

DRY

Dry - drain water from every part of your boat or trailer before leaving the site. Dry clothing and equipment for as long as possible before using elsewhere.

Find out more about invasive plants and animals and how you can help to stop the spread at:
