

Tackling Invasive Non-Native Species in the UK Overseas Territories

Horizon scanning exercise for priority invasive non-native species

British Antarctic Territory consensus priority species

Impact assessed for biodiversity (bio), economy (eco) and human health (hlth).

Species	Common_names	group	Impact		
			bio	econ	hlt
<i>Mytilus chilensis</i> (?)	Chilean mussel	Marine	x		
<i>Mytilus edulis</i> (?)	Blue mussel	Marine	x		
<i>Halicarcinus planatus</i>	Decapod	Marine	x		
<i>Ciona intestinalis</i>	Ascidian	Marine	x		
<i>Botryllus schlosseri</i>	Colonial Ascidian	Marine	x		
<i>Carcinus maenas</i>	European Shore Crab	Marine	x		
<i>Undaria pinnatifida</i>	Asian kelp	Marine	x		
<i>Chaetopterus variopedatus</i>		Marine	x		
<i>Mytilus galloprovincialis</i>	Mediterranean mussel	Marine	x		
<i>Bugula neritina</i>	Ruby bryozoan	Marine	x		
<i>Magallana gigas</i>	Pacific oyster	Marine		x	
<i>Protaphorura fimata</i>	in RA for South Georgia	Springtail	x		
<i>Nanorchestes antarcticus</i>	from other Antarctica territories	Arachnida	x		
<i>Leptinella scariosa</i>		Plant	x		
<i>Leptinella plumosa</i>		Plant	x		
<i>Poa annua</i>		Plant	x
