# KEEPING UP TO DATE WITH NON-NATIVE SPECIES

## LONDON ZOO, 21<sup>st</sup> SEPTEMBER 2011

This workshop offers an exciting opportunity to learn about the challenges and practicalities of dealing with non-native species in the UK and to discuss measures that are or could be taken to reduce the costs that these species have on both our financial and environmental assets.

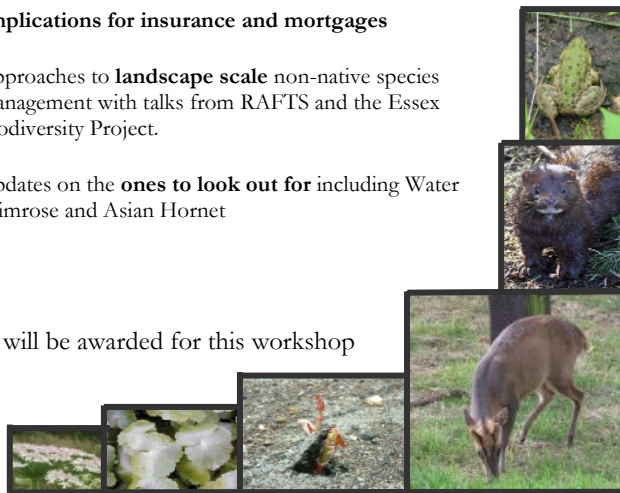

The day provides a valuable opportunity to :

- **understand** how to overcome the practicalities and challenges of non-native species
- **network and share experiences** across different fields of invasive species ecology and management

Topics for this years workshop include :

- Building and maintaining **partnerships** within large scale projects
- Non-native species in the **water environment** - where now in both freshwater and marine systems?
- **Implications for insurance and mortgages**
- Approaches to **landscape scale** non-native species management with talks from RAFTS and the Essex Biodiversity Project.
- Updates on the **ones to look out for** including Water Primrose and Asian Hornet

BASIS points will be awarded for this workshop

### Booking form
