

**Rivers and Fisheries Trusts of
Scotland**

and

Association of Salmon Fishery Boards

Taking Practical Action in Straitened Times:

Protecting, Managing and Promoting Scotland's Rivers

Fisheries Trusts and District Salmon Fishery Boards (DSFBs) individually, together or with RAFTS or ASFB are undertaking a range of practical actions to protect and manage Scotland's iconic and valuable aquatic environments, fish and fisheries. The difficult financial times mean that this work is, increasingly, being delivered with others and new partnerships with Government, the public sector and other partners are essential.

This conference will include presentations from fisheries trust and DSFB staff and invited speakers to show some of the wide range of actions and initiatives underway in order to better protect, manage and promote the use of our rivers for all and to tackle a range of threats to their quality.

**To register your interest or to book as a delegate please
return the reply slip overleaf.**

RAFTS

Association of
Salmon Fishery Boards

Annual Conference 2012

**Thursday 29 March 2012,
the Battleby Institute,
Perth**

A full programme of speakers is being developed but topics likely to be covered include:

- *The potential for a changing legislative position following the Aquaculture and Fisheries Bill Consultation*
- *Protecting and promoting access to and use of Scotland's angling resource*
- *The latest developments on understanding the genetics of the Atlantic salmon*
- *Practical management actions and projects from across Scotland*
